## Bryan Kelly

### SENIOR MORTGAGE CONSULTANT

Whether you are buying, selling, or refinancing, it is important to have an experienced mortgage professional to help you analyze your financing options, and make sure the closing goes smoothly. As a loan officer with Wintrust Mortgage Corporation, I have the expertise and experience to get you the right mortgage, and to handle your transaction professionally. Wintrust Mortgage Corporation ("WMC") is a Federally Chartered Mortgage Banker not a mortgage broker. This means that we have access to hundreds of lenders' rates and programs, but that we can underwrite and close your mortgage in-house. With my experience, and WMC's rates and programs, you are sure to get the mortgage that is right for you.

Please remember to get me involved early on in your home-buying process. Being [Pre-Qualified](#) not only gives you a better idea of what you can qualify for, it also gives you a stronger negotiation position when you find the home of your dreams.
