

Leslie Silverman

Technology Director

Leslie earned her Bachelors of Science in Secondary Math Education from University of Illinois at Urbana-Champaign. While there, she was on the Dean's list and subsequently successfully completed CTEP (cooperative teacher's education program). She earned a type 09 teaching certificate and went on to teach both middle and high school mathematics. Leslie continued her education by earning a Master's of Science in Education in School Administration from Northern Illinois University. While there, she earned a type 75 administrative certificate and later went on to serve as a math specialist for an intermediate school. While there, she also served as a technology instructor for teachers by teaching various classes at teacher in services such as how to use various grading programs, how to integrate the Internet into the classroom, and how to effectively use technology with gifted students. Leslie then took some time off to raise her own children and later returned to teaching by serving as a computer instructor for children ages 3-6 where she planned and implemented her own curriculum teaching a variety of computer skills. Leslie did that for a number of years and is now back to teaching adults here at ARELC. She is employed as both Technology Director and as an instructor for technology related continuing education classes such as Facebook for Realtors.
